FAO Inspectors Wildgoose BSc (Hons) MSc MRTPI and
Philpott BA (Hons) MA MRTPI

18th March 2022

Dear Inspectors

Examination of the Barnet Local Plan 2021 to 2036

1. There is one point of clarification arising from our letter of 11th March 2022.
2. Paragraph 25 of our letter refers to sites 'allocated in other planning documents adopted by the Council'. For the avoidance of doubt, the use of the word 'allocated' here is meant to be interpreted in a more generic sense – in other words, that some of the proposed allocations in the draft Local Plan have been allocated because they were identified in other planning documents adopted by the Council. It does not mean that the Council have allocated sites in non-development plan documents, given this would circumvent the requirements of the local plan process with regards to the allocation of sites. This is also the case in the Housing Technical Paper at paragraph 2.8, second bullet point, and at Appendix 4 item B 4.
3. In order to avoid potential uncertainty which may arise from the current drafting of 16.1.2, the Council will be seeking through a plan modification to amend paragraph 16.1.2 of the draft Local Plan as follows:

*~~16.1.2 The sites **allocated** identified in the Local Plan Schedule of Proposals are derived from the following sources: **also addressed**~~*

[...]

- ~~Allocated~~ in other planning documents adopted by the Council, including Supplementary Planning Documents, Town Centre Frameworks and Planning Briefs.*

Yours sincerely

Nick Lynch

Planning Policy Manager
