Question 4: Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect to the matters you have identified in Question 3 above.

Please note that non-compliance with the duty to co-operate is incapable of modification at examination. Please be as precise as possible.

1) The neighbouring streets such as Barnfield Road have narrow pavements, what plans are being put in place to ensure the local roads are able to cope with the additional foot fall in the area.

2) The area is prone to high levels of water especially along the watercourse of the Silkstream River during periods of heavy rain fall. What will the council do to guarantee the new development being planned will not make the situation worse for residents in the area. The new development will cause an increase in Surface/Groundwater levels.

4) For the occupiers of the new development where will they park? Whilst we appreciate that there are public transport links in the area, we should highlight that in most cases residents also require private vehicles. If parking considerations are not considered this would result in residents of the new development parking on neighbouring roads.

3) The LLFA (Local Lead Flood Authority) is mentioned throughout the document. Currently it is apparent that no one within the council knows which department / team are responsible for this role. This has become apparent when residents have tried to make contact with the council with regards to LLFA concerns issues in regards to new developments.

4) With the additional foot fall what plans are there to ensure that there is an increase in capacity for residents with regards to access to Schools, Doctors, Healthcare facilities in the area.
