An opportunity exists to create new open space adjacent to Cherry Tree Wood which is remnant ancient woodland, designated MOL and a site of local significance for nature conservation. It lies on an abandoned piece of tarmac (part of Brompton Grove) and the access to the High Road was cut off probably in the 1960s. The land is owned by Barnet Council. It has lain unused except as car parking until that was prevented in the last five years. The sensitivity of Cherry Tree Wood is noted in Site requirements given on the adjacent Park House site (site 26) in Annex 1 of the plan. The existing mature trees on that site are to be retained. The open space frontage if extended to this site would give a new landmark entrance to the Wood – which currently is recessed - opposite the Grade II listed East Finchley Underground station and would be a marked improvement on the Urban design of the current start to the East Finchley Town centre. It would remove a large section of tarmac which is currently only adding to the Heat island effect and replace it with natural open space which should be designed to complement the ancient woodland, provide shade and seek to improve pollinator activity to support the B line which runs through this site.

Please note that non-compliance with the duty to co-operate is incapable of modification at examination. You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.**
