The proposed housing target of 35,460 falls far short of the level of need identified through the application of the standard method and also through the SHMA. Whilst we note the Inspector's advice to set the housing requirement to match that handed down by the adopted London Plan the potential implications of such under provision in terms particularly of increased pressure on housing in Hertsmere, where there are already acute affordability issues, are of concern.

**Continue on a separate sheet if necessary**

**Question 4: Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect to the matters you have identified in Question 3 above. Please note that non-compliance with the duty to co-operate is incapable of modification at examination. You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.**

Consideration should be given to setting a higher housing target, more closely related to that arising from the application of the standard method.

Neighbouring authorities in Hertfordshire, including Hertsmere, and elsewhere in London are having to look again at green belt boundaries in the context of housing need identified through the application of the standard method. It appears that only minor inconsistencies/errors in the current green belt boundary are addressed in the Barnet local plan, with there having been no assessment of whether exceptional circumstances exist which would justify release of green belt in order to enable a higher housing target to be achieved.

Consideration of whether exceptional circumstances justifying the release of green belt exist such that a housing target closer to that indicated by the application of the standard method could be achieved should be undertaken.
