I consider the Tall Buildings policy unsound, especially the provision stating that tall buildings may be suitable for the Finchley Central town centre, including the Station site (proposed site 30).

I do not consider the policy *justified* in that it would detract significantly from the residential amenity of surrounding residential streets:

- A building of up to 14 storeys would tower over the houses of Station Road, Lichfield Grove, Hervey Close, Redbourne Avenue, all of which are at most two to three storeys tall. Many houses would be in permanent shadow.
- It would change the nature and culture of the area indelibly and for the worse by changing the landscape of the town centre
- It would cause serious congestion on Ballards Lane, where traffic is already a significant problem most of the day
- Removing the Station Car Park would force all station parking onto surrounding residential streets, where residents already depend on off-street parking

I do not consider the policy *effective*:

- without addressing residential demand seriously. Post-COVID London residents no longer wish to reside in a tower block up to 14 storeys, especially one that is not within the heart of the city itself in Zone 1. Lots will remain vacant and unoccupied

Question 4: Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect to the matters you have identified in Question 3 above. Please note that non-compliance with the duty to co-operate is incapable of modification at examination. You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Continue on a separate sheet if necessary

- Remove Finchley Central and North Finchley from the areas where Tall Buildings will be considered
- Remove the ability for 'Very Tall Buildings' to be considered for development
- Keep the station car park at Finchley Central Station as is as this would reduce the congestion on residential streets where station-goers already park their cars, forcing residents to park even further away

Please note:

In your representation you should summarise succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues they identify for examination.

Question 5: If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing sessions?

Yes, I wish to participate in hearing session(s)

No, I do not wish to participate in hearing session(s) /
I am not seeking modification to the Plan

Question 6: If you wish to participate at the examination hearings, please outline why you consider this to be necessary.

Please note that the inspector will make the final decision as to who is necessary to participate in hearing sessions, and to which hearing session(s) they should attend, and they will determine the most appropriate procedure to adopt to hear those who wish to participate at the examination hearings.
